**ZeroSUN™**  
Solar Controller

ZeroSUN™ is a ground breaking solar controller technology from Upplands Energy Systems that transfers power from solar panels to the batteries and uses that power with the highest degree of efficiency. ZeroSUN™ ensures that your system operates every night, without the dependency on continuous presence of sunlight.

ZeroSUN™ smart technology has zero dependency on continuous sunlight... No more worries about cloudy, wet, rainy days affecting your solar system.

ZeroSUN™ iCloud GPRS wireless control system provides unparalleled monitoring and systems management in real time, around the clock. The iCloud GPRS control system is secure, safe, easy to use and reduces costs associated with installation and maintenance.
