

Dual EV Charging Pedestal

The Dual pedestal is the perfect support for mounting industry leading level 2 EV charging stations. It is available in two sizes (48", 72") and designed to support up-to three EV charging units.

FEATURES

- Constructed from heavy gauge sheet metal (18g, 14g & 11g) and plate metal (1/4" & 1/8") either aluminium or steel.
- 8" wide faces allows not only a range of Level 2 EV charging units to be mounted but offers branding real estate
- Cable management mechanism with auto-retraction and self-locking is extendable up to 3M (~10 ft) in length
- Security bolts are used to prevent tampering and unauthorized access
- Back panel is removable for easy access for servicing
- Interior plate for mounting junction boxes
- Hi-grade powder coating as standard

Available in four colours but not limited to:

LIGHTING PACKAGE OPTION
